

**Manning Leonard Krull – Résumé/Curriculum Vitae.** Last updated **April 2010.**

**Objective** – To fit this résumé onto one page. Ha, no, seriously: to participate in interesting creative projects involving web design and development, Flash animation, graphic design and illustration, etc. I'm open to freelance opportunities and/or a fulltime position. Please see my website ([www.manningkrull.com](http://www.manningkrull.com)) for tons of samples of my work involving all my skill sets. I can be reached at [manning@manningkrull.com](mailto:manning@manningkrull.com) or by phone: 646-784-2007.

**Employment history**

**Freelance web designer/developer/illustrator/ animator** (February 2005 - present)

**Duties:** Designed and coded websites from scratch, built sites using content management systems like Wordpress, created Flash animations and interactive features, art-directed websites, designed logos, created illustrations for books and magazines, designed icons and banner ads, etc.

**Senior Manager of Web Development – Digitas Health**, Philadelphia, PA ( June 2000 - February 2005)

**Duties:** Designed and coded websites, created Flash animations and banner ads, designed information architecture for websites, mentored other web developers, managed freelance web developers, etc.

**Web Design Consultant – CoreTech Consulting Group, Inc.**, Mt. Laurel, NJ (May 1999 - June 2000)

**Duties:** Designed and coded websites, created Flash animations, designed logos, etc.

**Web designer/illustrator/animator – Red Sector A Corp.**, Mt. Laurel, NJ (February 1997 - May 1999)

**Duties:** Designed and coded websites, created Flash animations, designed and illustrated mascot characters, etc.

**Software proficiencies**

- Adobe Creative Suite: Photoshop, Illustrator, Flash, Dreamweaver; the whole shebang
- Microsoft Office Suite: Word, Excel, PowerPoint, etc.
- Various html editors, ftp applications, audio editors, etc.

**Relevant skills and knowledge**

- Web interface design, graphic design, logo design
- Web development; extensive knowledge of html, css, and web standards
- Extensive knowledge of web usability and information architecture
- Extensive knowledge of SEO (search engine optimization)
- Design and development of custom templates for Wordpress, Joomla, and similar systems
- Basic knowledge of php, asp, javascript, etc.
- Illustration, both traditional and digital
- Flash animation and interactivity
- Pixel art and animation, casual game design

**Other skills and knowledge**

- Digital photography and photo editing
- Fluent in French (English is my native language)

**Education** – I'm proud to be completely self-taught in all of my skill sets and benefit from over twelve years' professional experience in web design, web development, Flash animation, and illustration. I have ten years' experience creating websites in the pharmaceutical sector.

**References** – available upon request. Aren't they always?

Thanks for considering me!
